Now Offering

STEEL MESH SEATING UNITS

CACO Manufacturing now offers Steel Mesh Modular Seating Units that can brighten up any store with seating accommodations in numerous configurations allowing for **customization** and **easy arrangement**. Seat and table colors can be mixed or matched for a custom decorated look with **impressive visual impact**.

The steel mesh seat backs are made of perforated ergonomically shaped metal in one single piece providing user comfort, unmatched durability, and making them easy to clean and **practically maintenance free**. The beam and back sheet are powder finished, and the iron arms and legs are chrome plated, making them both **attractive and weather resistant**, so they're suitable for any application and all environments.

They're available in red, blue, black and silver in sets of 2 and 3 seats.

BOLT DOWN AVAILABLE UPON REQUEST AT NO EXTRA CHARGE
