Commercial Homestyle Front Load Washer Specifications

Convenience and Efficiency

What sets Huebsch front load washers apart from the competition?

Low water use.

Huebsch front load washers average just 13.9 gallons of water per cycle. Best of all, the washer is so efficient it's earned an ENERGY STAR® rating.

High spin speed.

With a final spin of 1,000 RPM, Huebsch front load washers exert 300 G-Force on loads to remove more water, reduce drying times and lower utility consumption. This is the same G-Force many top-of-the-line large capacity washer-extractors exert in commercial laundries.

Large, rugged doors.

Our washer's large 188.6 sq. in. door opening speeds the often awkward and time-consuming tasks of loading and unloading. In addition, the solid door features a durable piano style, steel hinge.

Stainless steel inside and out.

Huebsch front load washers feature stainless steel inner and outer tubs that are durable and will stay looking good for years. A fact backed up with a lifetime warranty on the tubs.

Convenience.

A frontmount supply dispenser automatically adds detergent, bleach and softener.

Model	LTZA0
Speeds	6
Cycles	5 - Regular, Rinse & Spin, Perm Press, Spin Only, Delicate
Water Temperatures	4 - Hot/Cold, Warm/Warm, Warm/Cold, Cold/Cold
Stainless Steel Washtub	2.84 cu. ft.

Unmatched Durability

What sets Huebsch apart from other brands in terms of reliability?

Not just standing behind our equipment, but standing beside you and your business.

Our made-in-America product comes with an industry-leading bond. The entire machine receives Huebsch's standard three-year warranty. In addition, Huebsch has more service representatives in the field than most brands have in their whole organization. Huebsch support is further bolstered by an online component and a help line that takes 10,000 calls per year.

*Parts only, labor not included. See Huebsch Warranty Bond for specifics.
